

Kaico GBA Ultimate Cart powered by SuperFW

What you will need

- A Windows PC
- A Kaico GBA Ultimate Cart
- A MicroSD card
- A MicroSD card Reader
- GBA Game Back Ups

MicroSD Card Set Up

1. First place the MicroSD card into the windows computer using a MicroSD card reader
2. Go to "This PC" and right click the MicroSD card in windows
3. Select format

**Formatting will erase ALL data on the microSD card. Back up any important files before continuing.*

4. Set the following options in the format window:

- **File system: FAT32**
- **Allocation unit size: Default**
- **Volume label: (optional – leave blank or enter Kaico GBA Flash Cart SD)**
- **Quick Format: checked**

**If FAT32 is not available, the card is likely larger than 32GB. Use a FAT32 formatting tool such as guiformat or AOMEI Partition Tool.*

5. Click Start.
6. Click OK when warned about data loss.
7. Wait for the format to complete.

8. Click OK, then Close.

Add Games and Homebrew

1. Open the microSD card.
2. Create a new folder called "GBA"
3. Copy your Nintendo GBA Backed up ROMs and homebrew files into this folder.

Final Setup

1. Safely remove the microSD card from your computer.
2. Insert the microSD card into the Kaico GBA Ultimate Cart.
3. Insert the Kaico GBA Ultimate Cart into your Nintendo GBA Handheld.
4. Power on the console.

Setup Complete

Your Kaico GBA Ultimate Cart is now fully set up and ready to use.
